AUTISM & DEVELOPMENTAL MEDICINE

## SENSORY FRIENDLY FILM SERIES AT THE CAMPUS THEATRE

For some people, going to a movie can be difficult because of the loud sounds and dark environment. Imagine the impact on a child with special needs who is affected by this sensory overload.

Geisinger's Autism & Developmental Medicine Institute (ADMI) and Lewisburg's Campus Theatre are happy to offer children with special developmental needs and their families a chance to experience the joy of seeing a movie on the big screen. These films will:

- Provide a comfortable and accepting environment for those who want to get up, move around or make noise
- Feature family friendly movies in 2D
- Begin on-time, with no previews or trailers
- Lower the volume of music and special effects
- Provide low-level lighting, instead of total darkness
- Allow those with special dietary needs to bring snacks

### Happy Feet

Sunday, February 2nd, 2014 at 2pm

Doors open at 1pm for activities for kids & adults.

**FREE ADMISSION! Donations appreciated!**

RSVP & More Information

Please RSVP to Megan at [meepler@geisinger.edu](mailto:meepler@geisinger.edu) or (570) 522-6281
